02. Sanitary Information

- 2.1 The territory of Bangladesh is free from reinderpest and Bovine spongiform encephalopathy (BSE)
- 2.2 Bovine bone granules originate from the Bovine which are born and raised in Bangladesh. Bovine bone granules originate from the farms which are under the surveillance of animal's epidemic monitoring plan of DLS and from the animals which are not dead for animal diseases.
- 2.3 Bovine bone granules are obtained from animals that were slaughtered in the officially approved slaughterhouse and were subjected to ante-and post mortem examination and did not show any sign of infections or contagious diseases.
- 2.4 Bovine bone granules were processed in the establishment approved by ministry of industries, Bangladesh with the consent of DLS and under the supervision of DLS.
- 2.5 Bovine bones granules were undergone heat treatment at least 90°C for 120 minutes. Under the stated above the department of Livestock Service (DLS) shall be responsible authority for the quarantine and inspection of Bovine Bone granule exported to Thailand from Bangladesh.
- 2.6 Bovine bone granules were found free from Anthrax, according to CDIL Report No.576, dt.22.07.2019.
